It is evident that in this assembly are men who would make their mark in any situation in which their fortunes might throw them. Whether born in affluence-their childhood passed in the shade of parental indulgence and luxury-their youth and early manhood in the quiet retreats of studystrengthening and maturing their minds with rich supplies from the atore-house of learningand prepared with every advantage of fortune, education, and social position to commence the battle of life,-or born the children of poverty, misfortune and toil-with childhood neglected and soffering-youth perhaps wasted withont improvement-and entering into manhood unaided by fortune or education, and sustained only by an indomitable courage, and by an energy that alone arms them for conflict with the difficulties of their position, and the toils of practical life,-yet from either position they would attain to eminence and distinction. And who knows, whether among the great men who were in this crowd at Mozart Hall, some, perhaps, the greatest among the great, may not look down from the height to which they have attained on a

When the name of our fellow-citizen, Dr. Millor, was announced for President of the Association, the applause with which it was greeted was peculiarly agreeable, and when the veteran physician stood before the assembly, in his modest greatness, and returned his thanks, we could not but think that if he was honored by the election, the Association was likewise honored in so distinguished a President

on last evening. The main causes of so sudder a stoppage, were the simultaneous sickness of Messrs, Lerton and Scallan, who are both dan gerously ill, and the departure of several members to fulfill summer engagements. Mr. Mellus find ing it impossible to work against such ill-fortune, has wisely concluded to close for a few days, intending, in the meantime, to re-arrange the interior of the theater, and open shortly with the Ravel Troupe. Mr. Mellus has been a faithful caterer to public taste, and, we have no doubt, will astonish us with the brilliancy of his re-opening. VESPER GAS .- In our advertising columns may be found testimonials from many of the most prominent and best known men in the State in favor of the Vesper Gas Light, recently introduced here by our old and excellent faiend, W. H. Settle, Esq. We have ourself tested the Vesper Light, and cheerfully add our testimony to its beauty, simplicity, cheapness, and cleanliness. It is less trouble than any other illuminating apparatus we know, and is such an excellent substitute for the ordinary gas, that we believe that it could be used by familiea even in cities lighted with gas with economy and benefit. We advise our read ers, especially those living in the country, to try it. We know they will thank us after using it for giving them this advice.

SPORTS AT THE SPRING GARDEN .- "Our Teutoni consins" gathered in large numbers at the Spring Garden to enjoy their great national sports of waltzing with pretty and buxom girls, and drinking unintoxicating lager. The Germans enter into such sports with that freedom and rivacity which is a pleasure not only to themselves, but to the beholder. A floor was provided in the orchard adjoining, where the visitors joined in the very comical, but inspiring German style of waltzing, as is usual among our quaint and jolly friends. All passed off quietly and pleasantly, no "fighting beverages" being on

We were yesterday shown through the new Pistol Gallery just opened on Fourth street, near Market, and found it to be fitted up in a very handsome and complete manner, having fine weapons and bell-targets. The pistols used there him and took him up in the stage yesterday, to are of the finest description, being made to order expressly for this establishment, at the celebrated factory of Dimmick & Co., in St. Louis. We venture to say, that any one practicing a few times with these weapons cannot fail to become good shots.

We are requested to say to the young men who, at a late hour last night knocked off the top of a number of atone fence posts on the northwest corner of Fourth and Broadway streets, if they will work as hard and use as much economy as the owner of this property has for the last forty years in order to procure it, and at the same time add his mite to the improvement of the city they will conclude that they have done him a great injustice in this wanton destruction of property.

The Marshal of that town claimed answer a felony. We also understood that the authorities of Frankfort have a claim on this very nice man, charging him with horse stealing.

Mr. J. G. Mathers will continue his large sale of carpets, lace curtains, summer furnishing goods and rich plated ware, to-morrow morning (Thursday,) at 10 o'clock, at his carpet ware rooms, on Main street. Many of his most desirable goods could not be reached at his first sale, all of which will be sold at this sale, without an

market during the last few days. It is now in good demand, with considerable sales to the trade at \$6 25 to \$6 per barrel. This is an improvement of fully fifty cents per barrel on the prices current ten days since. Wheat is much wanted at the mills at \$1 10 to \$1 30 for the different analities of red and white.

Louisville Tobscco Trade. Tohacco forms the staple of an important and rapidly increasing trade in this city. It now amounts to about two milions of dollars annual ly, and with the completion of the Nashville railroad, and its different projected branch roads, all penetrating the best portions of the tobacco regions of Kentucky and Tennessee, the trade will, no doubt, be greatly enlarged. This trade in its direct benefits to this city, differs in some important respects from almost all other branches of ide Main, between Clark and Mulberry streets | the general produce trade. Pork is sold at a particular season of the year, and the cash is paid to the farmers in large sums, and generally laid out by them in the country, without any direct benefit to the city, but on the contrary, absorbing almost all the money that can be furnished by the banking institutions; that trade creates a scarcity, for a time, of means for other branches of business. The same remarks apply to beef cattle in foundry, corner Tenth and Main streets, being and hemp. It is only the wealthy farmer who cultivates hemp or grazes and feeds cattle, and when he sells, which he only does when he gets a price that suits him, he invariably has an arrangement made to invest the money in some purchase of property or of stock for his farm. But tobacco s generally sold in small lots, and hy the planters themselves, as they have it ready for market, and a large portion of the proceeds is laid out here in the city, with our merchants and mannfacturers, in procuring and paying for articles to supply their family and household wants, and circulating in this way, through a hundred differ-

ent channels, it gives life and energy, especially o the retail trade of the city. Then , vain it is not, like the pork trade, crowded in a short space of time, hut extends, with more or less acivity, through the entire year. Its magnitude at no time is sufficient to cause a stringent money market, and thus mjuriously affect other departments of trade. On the contrary, large amounts of money are sent here from other points, hy dealers and manufac.urers, and invested in tobacco, without the buyers or their agents having to resort to bank discouts and accommodations o pay for their purchases, and being distributed by the farmers among our business community tends to create ahundance and ease, rather than scarcity and stringency in the money market. We learn that in the last few years, and especi-

ally during the present season, the tobacco mannfacturers of Buffslo, Syracuse, Alhany, and other points in New York; Pittsburgh, Washington, Harrisburg, Lancaster and Brownsville, in Pennsylvania; Cleveland, Ohio; Detroit, Milwaukee, &c., have their agents here huying tobacco. Most of these towns have heretofore supplied themselves with tohacco in the New York market. But manufacturers in most of them, especially in the lake cities, find they can afford to pay even higher rices than are usually current in this market. and send the article directly home, than wait and let it pass by their doors, and then buy in New York, where they have to pay, in the shape of increased price, the freights, charges and commissions, incident to its transportation and sale in New York, and then pay as muca to have it laid down at their warehouses and factories as it costs to hring it from Louisville. The advantages of his course are mutual, and not confined to a particular class. The farmer when he reaches the warehouse with his tohacco, and sees it striped and sampled, finds an increased number of hidders, more ompetition, and of course gets hetter prices for his article, and these distant manufacturers find their advantage in buying here, even at very fulrates, as they are still able to lay their purchases down on easier terms thau if they bought in the Eastern markets. In addition to the points we have named, there are also orders here from Boson, and if the kind of tobacco wanted for that narket were in better supply, those orders would take up quite a large quantity. They want a fine. rich tobacco, which is said to be scarce, and they would readily pay from nine to ten cents for such. We hear some small sales were made yesterday, privately, at 914 cents, for the Boston market. The prices of all descriptions of tobacco are now good, and such as pay the planters well. We do not think they can do better than send forward as rapidly as they can, their entire crop, as they may be assured, with the large number of buyers

here, they will get all their article is possibly worth . The National Hotel is crowded with guests ust now, and seemingly has more than its pro-

ortion of the disciples of Galen, who are assemoled here in convention. The National is very deservedly winning its way to a high popularity, being, as it is, one of the best managed hotels in

Particulars in future advertisement.

TUESDAY, May 3, 1859 Assault on Phelan.—A trio of men, Pat. Flinn, Jas. King, and John Kavanangh, were arraigned on the charge of assaulting Anthony Phe-lan. The latter was in court with his head very much battered, and testified that Flinn and a crowd of men beset and beat him, Flinn hitting him first with something in, or on his hand.— They had a falling out, either about work, or that complainant had said something about a hrother of one of the party having been drowned. He ac-cuses each of the accused of striking him, and that Flinn had a slung-shot, or something like it.

This was on Saturday evening last. The case was submitted to the court, and each held in \$100 hail to answer indictment.

OBTAINING GOODS AND MONEY UNDER FALSE PRE-TENSES.—Chas. Wheeler, a chunky, well-whisker-ed man, was in arrest on a warrant aued ont by Geo. Zorn, who charges him with obtaining goods and money under false pretenses. The case was continued till to-morrow.

PEACE WARRANT.—Gootsell against Erelghart,

a peace warrant, with divers witnesses with hard names, was called np. It was all about the children playing together, and fighting together followed, as a natural consequence, with a sort of quarrel among the old folks. It was all talk and no fight, and the warrant was dismissed.

CONTINUED TO THURSDAY.—The case against Ford was again continued to Thursday.

Another Felony Warrant.—Fred. A. Maflitt, a ANOTHER FELONY WARRANT.—Felo. A. Maintt, a sandy complexioned young man, was again introduced on the charge of obtaining \$32 worth of property from H. H. Biddle under false pretensea. This case was again continued till to-morrow. It is said that the young man is a son of the Rev. J. Newland Maffitt, the famous preacher.

At 11 o'clock, A. M., the Association was called order by the President. The Throne of Grace was addressed by Rev. Stewart Robinson, of Louisville, Ky.

Dr. R. J. Brecklnridge, of Kentucky, Chairma of the Committee of Arrangements, made a verbal report, and in a short but eloquent address welcomed the members of the Association to the city. Dr. Flint, of Kentucky, read for information a resolution adopted by the Kentucky State Medical Society, as follows:

Resolved, That a committee be appointed to wait upon the American Medical Association so soon as it shall open its session in Louisville, and on behalf of this society bid it welcome to the medical jurisdiction of Kentucky; assure it of the cardinal interest of the profession of the State in the objects and purposes of its institution, and of the readiness of this society to co-operate in all of its endeavors to promote the honor of our comnon calling.

And accompanied the reading of the resolution with a brief exposition of the efforts of Kentucky n the cause of medical science. The roll of the members of the Association was

[Correspondence of the St. Louis Republican.] GREAT SALT LAKE CITY, April 8, 1959.

Since my letter of last week the excitement in this city, and other parts of the Territory, con-sequent upon the efforts of Judge Cradlebaugh, at Provo, to expose the many crimes and morders that have been locked up in the bosom of the that have been locked up in the bosom of the Church for years, has somewhat abated. This may be accounted for for several reasons, the most important of which is, that the Mormons now see the practical workings of the Jury Law which was passed at the late Territorial Legislators. It is a complete breastwork to the project tre. It is a complete breastwork to the punishment of any crime that has heretofore been committed by the Mormons, or which may be committed hereafter. It is more potent than a President's proclamation, and the lodgement of mercy to be found in the prerogative of a Governer's pardon is an obselve dear under this is an obselete idea under this law, because it wil ever be required.

The Governor, hy common consent, is classed with the former in "this fight," and certainly the praises and universal landations of the Mormonwould warrant the inference that he is not im properly located. The rupture hetween the Judges and the Executive is open and irreconcil-able, unless the Governor yields, and all who are acquainted with him know that he never will for the ensuing year. The lawyers, and every sensible man in St. Louis, will laugh at the cunning of Mormon legislation, when I tell them that, under the operations of this law, and by express provision, the clerks of the Mormon county courts select the grand and petit juries of the Federal Courts; and to meet the exigencies of the present Federal Courts, the time of residence for qualification was so far extended, and other restrictious imposed, as to disqualify almost every Gentile in the Territory.—

Yet, strange to say, Gov. Cumming signed this bill, with all its odions provisions. The effect of this, in connection with his "protest" against the presence of a company of troops at Provo, on Judge Cradlebsugh's requisition, has been to draw the line of demarcation more distinct and more inflexible than ever, between the two classes of society in this Territory—Mormon and Gentile.

Hence, when the "Independent" boats are in port the "Monopoly" cut down prices, just as your "Mail Boat Line" did when opposition dared srray itself against that powerful company. The instant the Independent leaves port, the Association stretches the price of passage and freight to its natmost tension. Shippers on the Missonri are, however, well posted, and knowing the inevitable result of snstaining a combination of this kind, patronize the Independent boats. A sensible patronize the Independent beats. A sensible idea, and one that appeals to the pocket as well

as the head.

The navigation of the Missonri is perilous, in The navigation of the Missonri is perilous, in consequence of the myrisds of sasgs and sawyers which invite the attention and fears of nervons travelers. Except on very clear nights, however, boats do not ran. The quick-sand soil also causes the channel to change, and where on a trip the pilot finds good water, on the next he may run on a sand-bar. We passed yesterday the wreck of the Wm. Baird, a sternwheeler, which a few days since went afonl a log below Waverly and snnk. She was loaded for Sioux City, and, together with the cargo, is a total loss.—Some agents of the Cincinnati underwriters were camped out on shore, endeavoring to raise something from the wreck of matter, but they will hardly he repaided for their trouble. At Salvi more Bar—one of the worst in the river—we saw that the Michigan, which was aground, had been run into by the J. D. Perry, and nearly one side taken off. A few hours afterwards we passed the old stern-wheeler, Castle Garden, which dropped her wheeler overheard leat fell and a six heavy ner wheel overboard last fall, and, as it been replaced yet, for safety she is moored to a big cottonwood tree, aeveral miles from anywhere.— Stern-wheel boats should not navigate the Missouri. The current is too swift and snags too thick for boats hard to handle. There are about 150 Pike Peakers and emi-

The thing is a humbug, but the fever rages quite as fiercely as did the California in 134. It will end in adding Northern Mexico to the wide domains of the great Republic. That's some thing. The large proportion of the gold seekers start from Leavenworth, which city, of course, now reaps a rich harvest. Other cities, also, to out large numbers. It is estimated that hy July, 75,000 men will be in the gold regions. There is gold there, but whether in quantities to pay the miner is not yet determined. Some will make money anyhow and others won't, hat weep and wail and gnash their ivories. Such is life. Kansas City, Mo., Fort Leavenworth, Wyan dotte, and Atchison, Kansas, seem to he flourishing. The two places last named occupy beautiful sites for large cities, and with the superior countries. ites for large cities, and with the sup all these places, the merchants of which reap a

I don't want our party beat in August, but I would prefer a defeat to a trimmph with any such disgraceful weapons. The doctrine of squatter sovereignty is itself intervention, and releases any Democrat from what he may think to be his pledge to non-intervention. When Donglas says the Territorial Legislature may rightfully pass laws unfriendly to slavery, or may rightfully prefuse to legislate for its protection, he promulgates the doctrine of intervention in its most odnens form. The Democrats here will permit the advocacy of ne such a heresy in the name of Democracy. I think the Courier is right in denouncing Congressional protection to slavery against such Territorial outrages, and that the Democracy of this region will stand by the Courier's position. Indeed I do will at and by the Courier's position. Indeed I do not see how the Democrats of the State can take any other view of this subject and expect to win

I trust, then, that the name of Mr. Breckinridge will no more be used in this connection by his indiscreet friends if it is designed to put him in the United States Senate by the Legislature of next winter. Such an understanding will not only cause the failbre of Mr. Breckenridge to get this office, but it will superinduce the defeat of his friends all over the State, whether they are noon the State ticket or whether they are candidates for the Legislature or any other office. A Question and an Answer about Disunion. If Congress, on due application, shall refuse to legislate for the protection of the rights of slave property in the Territories, will the organ here advise "Southerners" to "stay in the Union" or go out of it? The question is a civil one; will the organ give a civil answer to it?—Louisville Journal

When the Democracy under the Administration of Thomas Jefferson, in 1801, took charge of this Government, the Union consisted of sixteen States and three Territories, all together covering an area of \$17,827 square miles, and containing a population of 5,000,000. Since that time the Democracy have admitted seventeen new States into the Union, and added to the Union vast territorial possessions, covering an area of 2,136,-560 square miles, and containing, with the thirtythree States, a population of 30,000,000.

These additions to the Union were made by the Democracy in the following order of time: Under Thomas Jefferson the State of Ohlo was admitted in 1802, and the vast Territory of Louisiana purchased in 1804.

Under James Madison the State of Louisiana was admitted in 1912, and Indiana in 1816.

Under James Monroe the State of Mississippi was admitted in 1817, Illinois in 1818, Alahama in 1519, Maine in 1820, Missouri in 1821, and Florida

Under Andrew Jackson the State of Michigan was admitted in 1886, and Arkansas the same

Under James K. Polk the States of Texas, lows, and Florida were admitted in 1845, Wisconsin in 1846, and California, Ut ah, and New Mexico purchased in 1º49. California was admitted into the Union as a

Democratic Congress did the work, and a Demothen became a State Under James Buchanan, the State of Minnesota was admitted in 1858, and Oregon in 1859. It thus appears that during a period of 58 years

argement and strengthening of the Union, the together his followers in the Southern population of the country has increased from five to thirty millions.

Such are the glorious deeds of the Democracy and we are Democrats. We are not sure, therefore, that it is a civil question to ask us if we circumstances, after the Democracy have thus made the Union. In deed, the question seems to us to be anything but civil. It is decidedly harbarons. It does not deserve a civil answer, but we shall nevertheless respond to it, just as if it were a civil question from a civil source, though is really neither the one nor the other For nearly three-quarters of a century there has

een going on in this country an unjust Free Nigger movement against those who think it right and proper in the sight of God and man to hold slaves. This mevement may be said to have received a legislative form in 1787, when Congress passed an ordinance forever excluding lavery from the Territory now occupied by the States of Ohio, Indiana, Illinois, Wisconsin and Michigan. This ordinance was unjust to the South, from the fact that it prevented Southerners from going into any part of 218,426 square miles of territory with their slaves. And this inustice was the greater from the fact that all this territory was properly the abode of slavery,

hecause it was a part of Virginia. From this time until the year 1820, a period of orty-three years, when the great Missouri qusion arose, the Free Nigger movement directed itself against the admission of new slave States into the Union, and against the acquisition of Territory destined to be the abode of slavery .-In the meantime, however, five new slave States, Kentucky, Tennessee, Louisiana, Mississippi and Alabama, were admitted, and the vast Territory known as Louisiana, large enough for three times as many more States, was purchased of France.

In 1820, however, the South sustained her secand great loss from the Free Nigger movement .-This loss was caused by what is known as the Missouri Compromise. By this compromise slavery was forever to be excluded from the territory north of the parallel of 36 deg. 30 min., and by t Southerners lost the privilege of going into the Territories of Kansas, Iowa, Minnesota, Nebraska Washington, and Oregon, where slavery then existed. It excluded slavery absolutely from 899,579 square miles of territory, and only pernitted it to be continued, if it could, in 119,578 .-It was, therefore, as eight to one against the South, provided the South could retain the 119,-578 square miles south of the line of 36 deg. 30 min., and was as all to nothing against the South

if the 119,578 square miles could not be retained And the next year showed that the North did not intend the South to retain this 119,578 square miles south of 36 deg. 30 min. Although the Missonri Compromise had been entered into in 1820, and the State of Missouri was thereby to come into the Union as a slave State the very next year, when the State applied for admission with a pro-slavery constitution, ac cording to the terms of the compromise, her admission was opposed by a formidable Free Nig ger movement from the North, eighty Northerners voting against it.

Again, when Arkansas proposed to come into the Union in 1836 as a slave State according to the Missonri Compromise, fifty-two of these Northern Free Niggerites voted against it. And when Texas in 1845 was to be admitted as a slave State, we find seventy-four of these same

Northern Free Niggerites vo ting against it in spite of the Missouri Compromi se. It is hardly necessary to any that while all this Free Nigger rascality was going on, the South stood by the Missouri Compromise, and voted for the admission of free States north of the line of 36 deg. 30 min. while the North did not stand by it and vote for the slave States south of that line.

During this year, however, we acquired California, New Mexico and Utah by the treaty of Guadaloupe Hidalgo. Ont of this acquisition of 632,157 square miles of territory sprang the Compromise measures of 1850, which led to the repeal of the Missenri Compromise after it had wrenght the prolific mischief of thirty-four years and lost He received this morning by express a choice asto the South an empire such as the Casars knew not. When the Territories of Kansas and Nebraska were organized in 1854, the Missouri restriction was repealed, and it was agreed as the South understood it, to let all future States come into the Union with or without slavery, as the people thereof at the time of adopting their Constitution should prefer. This understanding, however, like that of the

Missouri Compromise, was entered into in bad faith by the North. The very first opportunity streets that occurred for testing this faith proved that the North intended the wording of the Utah and New Mexico act of 1850, and the Kansas-Nebraska act of 1854, as a juggle. Kansas applied for admission into the Union as a slave State under the Lecompton Constitution, and every Black Republican in Congress, together with a few Northern Democrats and Southern Know Nothings, voted against the admission. This proves that the agreement between the North and the South, as set forth in the Utah-New Mexico act, and the Kansas-Nebraska act, was a juggle on the part of the North. When these Northern jugglers said the Territories should come into the Union as States with or without slavery, as the people thereof pleased, they meant thereby to fix up a way for emigrant aid societics, and such agencies, to quarter enough squatter ao vereigns in the Territories to determine the Free Nigger character of a new State long hefore its application for admission into the Union. That such was their meaning is placed beyond a doubt by the subsequent declarations of the Hon. Stephen A. Donglas, anthor of this jnggling Kansas-Nebraska act. This great sash, primed and glazed, boxes, yellow and white man now contends that a Territorial Legislature | pine flooring, steamboat decking, shelving, lummay rightfully pass laws unfriendly to slavery, or not legislate at all for its protection during the Ter- etc., etc. Also all kinds of dressing, ripping, ritorial state. This was not the understanding of spliting, scoll-sawing, etc., done to order with the South when the Utah-New Mexico act of 1850, or the Kansas-Nehraska act of 1854 was adopted. The South understood by these measures that the Territories were to remain open to the settlement of slave owners upon an equal footing with Yankee clock owners, and that there was to he no interference with slaves more than with any other property, and that slaves were to receive no less protection than any other property, at least until

Well, now, as Southerners we are tired of all such proceedings as those we have named. We want no more 1787 ordinances, no more Missouri more platforms with one meaning for the North and another for the South. We have been imposed upon hy these things long enough. Our eyes are now fully open, and we want to see things plain, and fair and right in the future. If slavery is to he confined within its present limits until it can be aholished or starved out, and if the constitutional rights of the South are no longer to he acknowledged and regarded, then the sooner that the thing is understood the better it will he for all concerned. Any improvement upon the Free Nigger movement of the last few years must drive the South out of the Union, and although we now see not the way for the Southern States to get out, we are of the opinion that the refusal to grant adequate protection to slavery in the Territories may make perfectly clear what is now very dark. And we can assure the editor of the Louisville Journal that his proposed union with the Black Republicans will very much facilitate the separation of the North from the South. In any event, however, we shall not propose to the South to go out of the Union until we have sufficient assurance State in 1950, under a Whig President, but a that the editor of the Louisvile Journal and all his confederates will go to the Northern division, cratic Administration acquired the territory which and dwell among his more congenial allies instead of remaining in the South, to which he has always

A VENERABLE LAWYER.—Daniel Cady, in the eighty-sixth year of his age, and sixty-fourth of his practice at the har, in Central New York, has had to suspend his practice on account of blindess. He was admitted to the bar during General Washington's administration, and has been in active practice under fifteen Presidents of the United States, and under twenty-two Governors of New York, and four State Constitutions, and five revisions of the New York civil code of proceedure. Mr. C. is said to have heen scarcely a day ill in these sixty-four years, and as a common law-yer and special peader, is without an equal in the Empire State. In the midst of constant hanges, such steadiness of purpose is worthy of a passing notice.

lowing Certificate of a cure of over twenty years's standing:

H. T. Helmdold—Dear Sir: I have been troubled with an affliction of the Bladder and Kidneys for over twenty years. I have tried Physicians in vain, and at last concinded to give your Genuine Preparation a trial, as I had heard it highly spoken of. It afforded me immediate relief. I have used three bottles, and I have obtained more relief from its effects, and feel much better than I have for twenty years previous. I have the greatest faith in its virtues and curative powers, and shall do all in my power to make it known to the afflicted. Hoping that this may prove advantageous to you in assisting you to introduce the medicine.

PURE SODA AND MEAD.

E would respectfully call the attention of the pub-lic to these articles, made at our establishment. We are engaged extensively in their mannfacture, and use only our own improved porcelain-lined Fountains and block tin pipe, which we have imported at great ex-pence expressly for us. It will therefore be seen that they are perfectly pure, and do not contain lead or any other injurious substance. Which is generally the case other injurious substance, which is generally the case where the old style of Fountain and the common lead pipe are used, and which keep a great many from using them for fear of the consequences, who would otherwise find them wery delightful and healthy beserages. We would invite every one to give us a call and try the superiority of our arilcles, which we guarantee to be of the very best materials, and made in the most careful manner.

LAURANCE RELD, Prof. Chemistry, N. Y. Hospital.

Mr. John L. Rome, Superintendent of the New York Hospital, says, "he has expelled all the bugs, ants, roaches, moths, etc., with Lyon's Powder, and finds it of immense value."

Every gardener and house-keeper must have a direct interest in an article of this kind. Reference can be made to the Astor, St. Nicholas, and Metropolitan Holis; to Judge Meigs, President of the American Institute; James Gordon Bennett, Gen. Winfield Scott, Cyrns W. Field, L. M. Pease, of the Five Points Mission, etc., etc. Judge Meigs says, "This discovery of prof. Lyon is of astional importance. The Farmers' Clib have tested it thoroughly. It will destroy lecusta, grasshoppers, anis, moths, bugs, and all vermin. Garden plants can be preserved, and houses made pure."

Arrangements are now made, through Measurs. Banks. & Paak, of New York, to have it sold throughout the world. Many worthless limitations are advertised. Be cantious!

These symptoms, if allowed to go on—which this medicine invariably removes—soon follows LOSS OF POWER, FATUTY, AND WPILEPTIC FITS—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—INSANITY AND CONSUMPTION? The records of the INSANE ASYLUMS, and the melanoholy deaths by GONSUMPTION, hear ample witness to the truth of these assertions. In Lunatic Asyluma the most melancholy exhibition appears. The countenance is actually sodden and quite destitute—neither Mirth nor firle ever visits it. Should a sound of the voice occur, it is rarely articulate.

The hull of the Black Hawk was built by Wm. Jones, of New Albany. It is 198 feet in length, with an easy model. The cabin was the work of Jas Millinger, of Piltsburgh. She has two en-gines, each 21 inches in diameter, with 6 feet stroke, the work of Lent, South & Shipman, of New Albany. The iron work was by Jas. Jackson; the copper and tin by McCracken & Commandeur, ship chandlery by Bushnell; the painting by Orr & Bolen; the furniture by Bailey & ng by Orr & Bolen; the furniture by Bailey & Decamp; the queensware, &c. by Jesse D. Brown, all of New Albany. The blocks and rigging were by Robertson & Davidge, of Pittsburgh. The Black Hawk was built by Capt. Haight, a clever boatman, for the Rapids Packet Company, and he has secured a good boat for the river.—Her cabin is neat and well built, withevery comfort desired, and passengers going to St. Louis or St. Joe can be put through on this boat for \$17, via the Hannibal and St. Joe Railroad. She starts this evening at 5 o'clock, from the apper wharf, and will take freight and passengers to St. Louis, Missouri river, and the upper Mississippi. Capt. H. H. Buchanan is the active agent of the Black Hawk, and passengers will find her the only boat going to day.

IDISPATCHES TO THE ASSOCIATED PRESS.

From Washington.
Washington, May 8.—The official statement just prepared for publication shows that Congress at the last session, appropriated for legislative, executive, civil and miscellaneous purposes, nearby \$11,000,000; for diplomatic and consular purposes, \$48,000; for the Indian Department and revolutionary invalid and other pensions, up-wards of \$3,250,000; for army, fortifications and military academy, \$15,249,000; for naval service, \$10,527,000; for the ocean steam mail service, \$341,229, making a total of \$41,367,699 dollars. In addition to the above about \$11,000,000 should be added for indefinite appropriations and to carry out the provisions of pie-existing laws, including the collection of revenues from cus-

The Fugitive Slave Case. ZANESVILLE, O., May 3 .- There was great ex citement here this afternoon, in regard to the fu citive slave Jackson, whe was arrested last night. Judge Marsh decided that the prisoner was illegally held, and discharged him. Immediately after his discharge, he was re-arrested, hand-cuffed, put into a hack, and driven to the depot, for the purpose of taking him to Wheeling on the trait than due of the depot. train then due at the depot. A desperate effort was made by negroes to rescue him, but it was unsuccessful. During the excitement at the depet, pistols, clubs, and bricks were freely used by which several persons were injured. Mean-while, a writ was served on the Marshal, commanding him to bring the prisoner back and show why he was held. This point has not yet been

Nomination for Congress in the Ashland District. LEXINGTON, May 2d.—The Democracy of the Ashland 1 istrict met in Convention at Nicholasville to-day. Hon. J. B. Clay having declined a re-election, Capt. W. E. Simms, of Bourbon, an Old Line Whig and ex-editor of the Paris Flag, was nominated on the first ballot. He declined the Lieutenant Governorship in favor of Linn Boyd, at the Frank fort Convention.

Philadelphia City Election. Philadelphia, May 3.—The municipal election to day went off very quiet. But a small vote was polled. The general appearances are in favor of the Democratic ticket. It is generally conceded that Dr. McClintock, Democrat, for City Treasurer, is elected, and that the Democrats probably have a majority in the City Council.

From New Orleans. NEW ORLEANS, May 3.—Col. Lockridge's agent at Pike's Peak reports numerous disappointed miners joining his expecition.

River and Weather. St. Louis, May 3, P. M.—The river is rising pretty rapidly at this point, as are also the Miasouri and Upper Mississippi. The weather is variable, portending rain. PITTSBURGH, May 3, P. M.—River eight feet ten inches by pier mark. Arrived, J. H. Done; departedf Arirona, for St. Louis, and the J. H. Done for St. Louis. Weather clear and warm.

61 SAY, Joe, what crowd is that near BLANCHARD & SON'S?" "That? 0, that is a lot of customera going to and from Bianchard & Bon's continually. I am told that they received a new stock of Men's, Boys' and Yonth's Clothing and Furnishing Goods last week, and I suppose the crowd is a little greater than usual; in fact Brother John told me that several accidents occurred there last week in consequence of the dense rush of customers. It must be admitted that the great crowd you see going and coming from there every day must be taken as evidence that Bianchard & Son have the best etock of goods in the city, and sell much cheaper than anybody else. I must say that before I commenced dealing there, I had hard work to get along, but since I commenced bnying my supplies at Blanchard & Son's, I am getting rich." THE VESPER GAS AIR LIGHT.

AIR LIGHT.

The Cheapest, most Brilliant, and most Convenient Artificial Light in the World.

The Vesper Gas Light has won for itself a reputation for elegance, economy, safety and simplicity, far beyond any other artificial light. The Vesper Gas flame and fixtures precisely resemble in form those of coal gas; but in brilliancy and purity of light, it possesses a decided advantage over even Louisvillo coal gas. It requires no chimney; there is no need of delly trimming of wick; and the construction of the fixturea is a simple that it is not listle to get out of order, and a child can manage it readily. The gas burnt in the Vesper fixtures is generated from pure coal oil, without any admixture of alcohol or other foreign ingredient. It is entirely free from odor while burning, as, hy a simple contrivance, the vapor of the oil is mixed with the atmosphere, producing perfect combustion and a most intense light. The light has been pronounced, by those who have had it in constant use for months, as most pleasant to the eye while reading or sewing, the rebeing no fickering or unsteadinesa in the flame. The Vesper Gas light is portable, and can be used in town or country—in fact, wherever artificial light is required. The fixtures themselves are adapted in styles to suit all tastes, from the plain slogle light burner to the most costly chandeller. Each chandeller is perfect in itself; there is no ontiay to he made for service pipes. The se is generated in the burner, and all fixtures, from the cheap single light burner to the expensive chandeller, are miniature gas works in themselves. They are sold at prices which do not exceed the cost of ordinary gas fixtures of similar styles and ornamentation. A price list will be sent to any address on application.
